USRA Guide

Under the Scope BC

Description

USRAs are Undergraduate Student Research Awards. The USRA program supports more than 3,000 students each year. It is administered jointly by Canada's three granting agencies: the Canadian Institutes of Health Research (CIHR), the Natural Sciences and Engineering Research Council of Canada (NSERC) and the Social Sciences and Humanities Research Council (SSHRC).

Applications for the USRA program must be completed and submitted to the Canadian institution where you wish to hold the award, using NSERC's online system. Institutions then submit selected applications to NSERC. USRA applications cannot be submitted directly to the agencies.
